Every member of the Class of 2026 at Beal High School secured a progression route into post-16 education.

The Clayhall school saw 82 per cent of students achieving a grade 4 or above in both English and maths and 61pc achieving strong passes of grade 5 or above in the two subjects.

In maths, 40pc of students achieved a grade 7 or higher, while 85pc of students secured a grade 4 or above in English literature.

A quarter of the year group achieved grades 7 to 9 in the subject.

Triple science students excelled, with a 100pc pass rate at grade 5 or above in biology, chemistry and physics, while 75pc achieved grades 7 to 9 in both chemistry and physics.

The school's highest achiever was Vishnu Priya Arun, who achieved an incredible 10 grade 9s and one grade 7.

'I was incredibly nervous opening my results'

Students from Beal Sixth Form, the largest sixth form in the country, have shared their experiences of opening results today.

Yuki Adagbasa, who secured A*AA, said: "I feel absolutely delighted.

"I've worked incredibly hard for these results, and it's paid off. My message to other students is simple: don't give up, stay focused and keep working hard — you'll get there."

Victoria Goreanu, who is going study Architecture at the University of Greenwich, said: "I like the fact that I got a second chance on the three-year pathway.

"I loved the environment and making new friends.

"I feel if I had gone straight into A-levels I may not have been as successful as I have been."
