BEAL SIXTH FORM

One Sixth Form

Two Campuses Four Pathways

Prospectus 2027–28

WELCOME

An exceptional education for all

We are the largest school-based sixth form in the country, and we are proudly comprehensive. We welcome young people from across our community and build each of them a route to where they want to go.

That commitment has a name: high-expectations inclusion. Four genuine pathways rather than one, a course offer wide enough that nobody has to compromise, and a promise that every student leaves us with a high-quality destination that is right for them.

Our aim is to provide an exceptional and world-class quality of education for all of the post-16 students in our school community.

100%

progression to university, degree-apprenticeship or employment

4

pathways: Three Year Pathway, A Level, Vocational/Blended and Maths School

24

Level 3 courses, including academic, creative, technical and vocational subjects

2

campuses, one sixth form, equality of opportunity for all

You will be known

Every student has a personal academic tutor and a Head and Deputy Head of Year. All students have access to SENCOs, careers advice, and a full personal development programme.

Our staff work together across both campuses to provide the best academic and pastoral support possible.

FOUR PATHWAYS TO SUCCESS

There is a pathway here for you.

Most sixth forms offer one pathway, we offer four pathways. Each pathway ends with you progressing on to your success, with a team that will get you there.

01

A Level

Three A Levels, or three plus an EPQ. Four for the highest achievers at GCSE. The academic route to a competitive degree or degree-apprenticeship.

Leads to: Russell Group, high-tariff degrees and degree-apprenticeships

02

Vocational & Blended

Level 3 vocational courses on their own or combined with A Levels. Applied and Medical Science, Business, IT, Hospitality and Health & Social Care.

Leads to: degrees, degree-apprenticeships, employment

03

Three Year Pathway

For students not yet ready for Level 3. Resit English and Maths alongside Level 2 courses, then progress on to Level 3 courses.

Leads to: Level 3 study, then university or apprenticeship

04

BSF Maths School

Maths and Further Maths plus Computer Science, Physics or Economics. Taught by academics in residence in a purpose-built suite.

BSF MATHS SCHOOL

Leads to: Mathematics and STEM-intensive degrees and careers

Full course lists, entry requirements and subject pages: bealsixthform.co.uk

COMPREHENSIVE & INCLUSIVE

Eighteen A Levels
Six vocational courses
One Maths School

Our size is what makes the breadth possible. It lets us run creative subjects that are disappearing elsewhere, including Art, 3D Design and Media, and it lets us build a programme around you.

A Levels

3D Design	Geography
Art	History
Biology	Mathematics
Business Studies	Media Studies
Chemistry	Physics
Computer Science	Politics
Economics	Psychology
English Literature	Religious Studies
Further Maths	Sociology

Plus the Extended Project Qualification (EPQ).

Level 3 vocational

Applied Science	Hospitality & Catering
Business (single & double)	Information Technology
Health & Social Care	Medical Science

Level 2 and GCSE resits

English Language resit	Food
Mathematics resit	Health & Social Care
3D Design	Information Technology
Business	Photography
Combined Science	Religious Studies

Course pages and entry requirements are kept up to date online. Scan the codes on page 12.

A SPECIALIST SCHOOL INSIDE OUR SIXTH FORM

BSF MATHS SCHOOL

Maths and Further Maths plus Computer Science, Physics or Economics. Dedicated classes, taught in part by academics in residence, in a purpose-built suite. Olympiads, competitions and preparation for STEP, MAT and PAT.

bealsixthform.co.uk/maths-school

100% progression

Each pathway takes you to a destination that is right for you. The right next step, with the application, the references and the preparation behind it.

University

Most of our students go on to degrees, including at Oxford, Cambridge, Imperial, UCL, King's, Warwick, Nottingham and QMUL.

Degree-apprenticeships

Students have taken places with major employers across finance, technology, accountancy and transport.

Apprenticeships and Training

Finance, computing, surveying and construction, with dedicated application support.

Employment

Supported routes into work, with CV, interview and employability preparation built into the programme.

WHERE OUR STUDENTS GO

Popular courses: Economics, Law, Accounting and Finance, Business Management, Biomedical Science, Psychology, Computer Science, Mathematics, Pharmacy, Architecture, Engineering and Medicine.

We have an excellent record in Medicine and Dentistry, with dedicated MDV masterclasses and specialist application support. Our High-Fliers programme supports students applying to Oxford, Cambridge and the most competitive Russell Group courses.

BEYOND THE CLASSROOM

Personal Development

Grades are not the only outcome of a brilliant sixth form education. Every student takes part in a programme that asks them to think more, give more and commit more.

Personal Development Award

Bronze to platinum, accredited in July and ready for UCAS.

GiveBack

Every student volunteers: mentoring, coaching, leadership or fundraising.

Societies

Debating, chess, programming, sport and The Beal Podcast. Start your own if it does not exist.

The Duke of Edinburgh's Award

Our flagship personal development programme. Bronze, Silver and Gold: expeditions, skills, physical challenge and volunteering.

EARNED INDEPENDENCE

Independence is something you grow into

Private study here is a membership you earn, not a room you are sent to. Attendance, conduct, contribution and progress move you up through four tiers, each unlocking better space and earned responsibility.

Bronze
Supported structured study to help you succeed.

Silver
Structured study to develop your personal responsibility.

Gold
Collaborative spaces, flexible use of time.

Platinum
Our first class facilities and the trust to use them.

Excellent facilities

Five dedicated study centres	Beal Café
A bespoke Maths School suite	On-site gyms
Common rooms and printing	Technology and bursary support
